THROTTLE RETURN SPRING KIT

Carb Mount · Steel · Chrome · Square Bore / Holley 2300 Carburetors

PART NUMBER
QRP65-096

OVERVIEW

A stuck throttle is the fastest way to end a race badly, and a single return spring is a single point of failure. A dual spring kit gives the linkage a backup. The chrome kit includes two springs, a bolt-on carb mount bracket, and a range of spacers to suit different throttle rods, fitting all square bore four barrel and 2300 model two barrel carburetors.

SPECIFICATIONS

Finish	**Chrome**
Sold As	**Kit**
