TORQUE LINK

Standard · 13-1/2 in Length · Bushings · Steel

PART NUMBER
QRP66-500

OVERVIEW

QuickCar Torque Absorbers increase forward bite off the corner and hold traction down the straight, and they do it with less weight than spring-style units. CNC-machined construction with an internal brass bushing and grease fittings keeps them from binding, and they are IMCA-legal. Short, 13-1/2 Inch
