IGNITION COIL BRACKET

Canister Style · Firewall Mount · Aluminum · Black Anodized · Universal

PART NUMBER
QRP66-925

OVERVIEW

An ignition coil bolted to whatever surface was convenient tends to work loose from vibration and sit exposed to engine heat. This QuickCar bracket gives a canister style coil a solid, purpose-built mounting point on the firewall or a flat panel. Anodized aluminum construction resists corrosion while keeping weight down, and the universal design fits common canister style coils.

Sold individually.

SPECIFICATIONS

Material	**Aluminum**
Location	**Firewall**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**9.05 × 5.5 × 2.85 in**
Ship Weight	**0.21 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
