Clamp-On · Round · 1/2 in OD Tube · 1-3/4 in Tube Mount Bracket Included · Steel · Chrome

OVERVIEW

Transmissions and rear ends need to vent, and routing that vent up to a clamp-on breather keeps fluid off the track and dirt out of the driveline. QuickCar Vent Clamps mount directly to chassis tubing, so no additional bracketry, drilling, or welding is required. This version clamps to 1-3/4 Inch roll bar tubing and accepts 1/2 Inch outside diameter vent hose, with the tube mount bracket included.

Chrome finished steel construction stands up to heat, fluid, and weather.
