DISCONNECT COUPLER

Steering · Weld-On · 3/4 in · Fine Spline · Steel · Natural · Quickcar 360 Degree Style Disconnect

PART NUMBER
QRP68-0159

OVERVIEW

Steering coupler splines and hex bores wear, and a loose disconnect telegraphs every bit of that slop straight into the driver's hands. This replacement weld-on coupler restores tight, predictable engagement without the cost of a complete disconnect assembly. Machined from steel and built specifically for the QuickCar 360 Degree fine spline disconnect (68-015), it welds to a 3/4 Inch outside diameter steering shaft.

Keeping a spare on the shelf means a worn or damaged coupler never costs track time.

SPECIFICATIONS

Material	**Steel**
Sold As	**Each**

SHIPPING & PACKAGING

Package	**6.1 × 2.85 × 1.35 in**
Ship Weight	**0.34 lb**
Country of Origin	**USA**
Vehicle Type	**Car**
