FUEL PRESSURE GAUGE

Redline · 0-15 psi · Electric · Analog · Full Sweep · 2-5/8 in Diameter · Black Face

PART NUMBER
QRP69-000

OVERVIEW

QuickCar Analog Gauge Panel Assemblies provide racers with a clear, dependable way to monitor critical engine and vehicle conditions without assembling an instrument panel one component at a time. Easy-to-read analog gauges give drivers immediate visual feedback, making it simple to recognize changing pressures, temperatures, engine speed, and other vital operating conditions at a glance. Integrated warning lights provide an additional visual alert when monitored conditions require attention, helping the driver identify potential problems quickly during competition.

Preassembled panels combine compatible gauges, wiring, sending components, and mounting provisions into an organized installation that reduces fabrication work and simplifies race car wiring. Built for the focused, functional environment of a competition vehicle, QuickCar Analog Gauge Panel Assemblies put essential information directly in front of the driver while providing a clean, professional foundation for the vehicle's instrumentation system.

Note: Sending unit sold separately (Part # [63-240](#)). Sender required for the gauge to function.

SPECIFICATIONS

Application	Fuel Pressure	Package	5.65 × 4.6 × 4 in
Diameter	2-5/8 Inch	Ship Weight	0.68 lb
PSI	0-15 PSI	Country of Origin	USA
Style	Redline / Electric / Full Sweep	Vehicle Type	Car
Digital Or Analog	Analog		
Sold As	Pair
