WATER PRESSURE GAUGE

Redline · 0-60 psi · Electric · Analog · Full Sweep · 2-5/8 in Diameter · Black Face

PART NUMBER
QRP69-008

OVERVIEW

An electric gauge does not need a fluid line run to the dash. QuickCar Redline Series 2-5/8 Inch gauges use a reliable electric stepper motor in a lightweight plastic case, and an adjustable warning level changes the backlighting color and flashes when a reading needs attention.

This gauge reads water pressure on a 0-60 PSI range, and its warning function switches the backlighting from white to blue and flashes when pressure drops below the set level. Sending unit 63-230 is sold separately and is required for the gauge to work.

Note: Sending unit sold separately (Part # 63-230). Sender required for the gauge to function.

SPECIFICATIONS

Application	**Water Pressure**
Diameter	**2-5/8 Inch**
PSI	**0-60 PSI**
Style	**Redline / Electric / Full Sweep**
Digital Or Analog	**Analog**
Sold As	**Each**
